

UNIT 11

(SEE PAGE 68 FOR UNIT 11 MAP)

This unit consists of that area draining into the headwaters of the Copper River south of Suslota Creek and the area drained by all tributaries into the east bank of the Copper River between the confluence of Suslota Creek with the Slana River and Miles Glacier.

Special Provisions:

- Bait may be used to hunt black bear between April 15 and June 15.
- A Federally-qualified subsistence user (recipient) may designate another Federally-qualified subsistence user to take caribou, moose, and goat on his or her behalf. The designated hunter must obtain a designated hunter permit and must return a completed harvest report. The designated hunter may hunt for any number of recipients, but may have no more than two harvest limits in his or her possession at any one time.
- For subsistence use, national parks, monuments and preserves are open only to National Park Service qualified subsistence users. Subsistence users must be local rural residents of National Park Service areas. For more information, contact the National Park Service office in Anchorage, Alaska (telephone 907/257-2649).
- Moose hunters who use the head as evidence of sex of the animal are required to obtain a federal registration permit. Moose hunters who use sex organs as evidence of sex are not required to obtain a Federal registration permit.

An "All rural residents" designation in the following customary and traditional use determinations means that a specific determination has not yet been made.

Hunting
